THE FORCE BEHIND DARTS™

# TECHNOLOGY DRIVING CHAMPIONS

FOR OVER 70 YEARS WINMAU HAS BEEN OBSESSED WITH EXCELLENCE IN DARTS TECHNOLOGY

### THE FORCE BEHIND QUALITY

Engineering, technology and quality are the cornerstones of the Winmau brand. No other darts specific facility exists the World over, allowing Winmau to set new standards in craftsmanship and technological innovation, while remaining true to our grass roots heritage.

### THE FORCE BEHIND THE BRAND

Brimming with passionate darts people who put dart players first to inspire their every darts journey. Exporting and market building in over 75 countries with people who share our goal of helping even more people take up the sport we love.

### THE FORCE BEHIND TECHNOLOGY

The World's largest manufacturer of premium bristle dartboards and aerospace grade tungsten darts. Cutting edge technology, distinctive design and superb performance are all characteristics of every product, evolved from our purpose-built factory.

### THE FORCE BEHIND BLADE

Nothing illustrates Winmau's passion more clearly than Blade's 25 Year dartboard evolution. Since 1997 Winmau has been the forerunner in Blade technology, with each iteration cherished by all the World's best players.

FIFTH GENERATION BLADE TECHNOLOGY

BLADE 5™ DUAL CORE®

#CHOOSE BLADE

# BLADE 5™

The Blade 5 pushes the boundaries of dartboard technology to its limits with the Blade wiring system allowing for 9mm² extra scoring area in the doubles and 6mm² extra scoring area in the trebles, with a 14% reduction in web surface area for higher scoring. The dynamic sector wires are 20% thinner and the radial wires are 10% thinner for greater scoring potential.

- HI-VISIBILITY SISAL BASE
- BEST-IN-CLASS DURABILITY

# BLADE 5™ DUAL CORE®

The Blade 5 Dual Core represents the pinnacle of dartboard technology and innovation. Exclusive dual core technology achieves lower compression at the outer core, which increases point penetration for fewer lost darts and higher scores, whilst higher compression at the inner core increases resistance below the surface, absorbing excess kinetic energy for improved durability.

# THE TECHNOLOGY BEHIND THE BOARD

## 5TH GENERATION BLADE TECHNOLOGY

### INCREASED SCORING AREA

- New Blade 5 wiring system allows for 9mm² extra scoring area in the doubles and 6mm² extra scoring area in the trebles
- 14% reduction in web surface area for less bounce outs and higher scores

### WIRE EVOLUTION

- Blade angle reduced from 90 degrees inclusive to 60 degrees inclusive for the ultimate in low bounce out technology
- Acute angles over 30% sharper to help deflect incoming darts into the board to increase scoring and reduce bounce outs even further

### ENHANCED TENSILE STRENGTH

- Over 20% increase in the UTS (Ultimate Tensile Strength) of the Dynamic Sector Wire to ensure that dart points glide past the wire and into the scoring bed
- Cold rolled for improved molecular structure of the steel, extra strength and the ultimate in wire durability
- New bullseye and 25 ring featuring carbon diffusion technology for an ultra-hard surface, allowing dart points to glide past the angled rings into the board for improved performance and durability

## ZERO MOVEMENT

### ROTA-LOCK

- Triple-wheel lock and level system to easily secure the dartboard to virtually any surface. This unique and exclusive system allows for a quick and solid fix to the wall. Each wheel can be easily adjusted to enable perfect radial alignment and levelling
- Easy set-up that enables simple dartboard rotation and can be used on uneven surfaces with zero movement
- Adjust the dartboard while the board is in situ with no need for removal

## THE DUAL CORE ADVANTAGE

### DUAL CORE TECHNOLOGY

- Lower compression at the outer core reduces surface resistance and increases point penetration for fewer lost darts and higher scores
- Higher compression at the inner core increases resistance below the surface, absorbing excess kinetic energy for improved durability
- Pure sisal outer core with uncompromised playing surface for perfect vision and easier alignment

## FREEFLO POINTS

No points have ever achieved better results for stunning looks and dart-on-flight deflections.

Improved aerodynamics | Eliminates impact zone | Darts glide past to score

35mm | Flights live longer

## STEELTIP DART POINTS

| 32mm Knurled Black | 32mm Knurled Silver-Effect | 32mm Ringed Black | 32mm Standard Black |
|---|---|---|---|
| 8366B | 8366S | 8371B | 8610B |
