MICHAEL
VANGERWEN

MvG DESIGN

2020 COLLECTION

A composite image featuring Michael van Gerwen. On the left, a close-up of his face in profile, looking intently. On the right, two smaller, semi-transparent images of him shouting or cheering, one with his mouth wide open. The background is dark with bright green laser-like lines crisscrossing it. The overall color palette is dominated by green and black.

“ Being the best in the World is both a privilege and a dream for any player and is a vision I have to work hard on every single day ”

Michael van Gerwen

ADRENALIN™

MvG DESIGN

STEEL/SOFTIP - 90% TUNGSTEN DARTS

Machine intelligence combines with MvG Design allowing Winmau to create the most radically functional grip in darts technology. Built using proprietary triple axis mapping and strategically machined to produce darts which feel connected above and beyond any level previously experienced. Mesmerising PVD Onyx with metallic green detailing, Adrenalin offer the trendiest and most energetic design ever showcased. Adrenalin's grip technology radiates confidence, allowing you to hit every shot, every time. Bring your A-Game.

CHOOSE BLADE
THE WORLD'S MOST ADVANCED DARTBOARD

BLADE/S™

DUAL CORE®

Spanning 25 years of technological development, The Blade is universally recognised as the World's most advanced, staple-free, bristle dartboard. Since first launch in 1997, there have been five generations of Blade dartboards, each pushing technological boundaries and continuing the pioneering craftsmanship making it the most popular board of choice throughout the Darts World. Now, in 2020, with global tournament prizes of millions of pounds each year, the importance of dartboard performance and functionality has never been greater.

25 YEARS

IN THE MAKING

BLADE/5™

The Blade 5 pushes the boundaries of dartboard technology to its limits with the Blade wiring system allowing for 9mm² extra scoring area in the doubles and 6mm² extra scoring area in the trebles, with a 14% reduction in web surface area for higher scoring. The dynamic sector wires are 20% thinner and the radial wires are 10% thinner for greater scoring potential.

3008

TECHNOLOGY

ROTA-LOCK
SYSTEM

APPROVED
SPECIFICATION

HI-VISIBILITY
SISAL BASE

BEST-IN-CLASS
DURABILITY

BLADE/5™ DUAL CORE®

The Blade 5 Dual Core represents the pinnacle of dartboard technology and innovation. Exclusive dual core technology achieves lower compression at the outer core, which increases point penetration for fewer lost darts and higher scores, whilst higher compression at the inner core increases resistance below the surface, absorbing excess kinetic energy for improved durability.

Patent No. 2507762

THE TECHNOLOGY BEHIND THE BOARD

5TH GENERATION BLADE TECHNOLOGY

INCREASED SCORING AREA

- New Blade 5 wiring system allows for 9mm² extra scoring area in the doubles and 6mm² extra scoring area in the trebles
- 14% reduction in web surface area for less bounce outs and higher scores

WIRE EVOLUTION

- Blade angle reduced from 90 degrees inclusive to 60 degrees inclusive for the ultimate in low bounce out technology
- Acute angles over 30% sharper to help deflect incoming darts into the board to increase scoring and reduce bounce outs even further

ENHANCED TENSILE STRENGTH

- Over 20% increase in the UTS (Ultimate Tensile Strength) of the Dynamic Sector Wire to ensure that dart points glide past the wire and into the scoring bed
- Cold rolled for improved molecular structure of the steel, extra strength and the ultimate in wire durability
- New bullseye and 25 ring featuring carbon diffusion technology for an ultra-hard surface, allowing dart points to glide past the angled rings into the board for improved performance and durability

ZERO MOVEMENT

ROTA - LOCK

- Triple-wheel lock and level system to easily secure the dartboard to virtually any surface. This unique and exclusive system allows for a quick and solid fix to the wall. Each wheel can be easily adjusted to enable perfect radial alignment and levelling
- Easy set-up that enables simple dartboard rotation and can be used on uneven surfaces with zero movement
- Adjust the dartboard while the board is in situ with no need for removal

THE DUAL CORE ADVANTAGE

DUAL CORE TECHNOLOGY

- Lower compression at the outer core reduces surface resistance and increases point penetration for fewer lost darts and higher scores
- Higher compression at the inner core increases resistance below the surface, absorbing excess kinetic energy for improved durability
- Pure sisal outer core with uncompromised playing surface for perfect vision and easier alignment
- Patent No. 2507762

GET INVOLVED

PIONEER PARTNERS QUIETLY CHANGING THE STATUS QUO

Whilst Winmau is the brand of choice of top professionals worldwide, it's foundations are built on the bedrock of grassroots darts. It's an absolute honour to support our many partners in their pioneering work, much of which is easily overlooked. To them, darts really is "More than Just a Game..." The passion for darts shown by these people goes above and beyond just commercial objectives and demonstrates a spirit of enterprise and leadership on projects that have a clear purpose and significant social impact in the darts ecosystem in which we live. We're with them every step of the way, supporting the positive change they seek to make for us all.

BOB POTTER OBE

The man who single handedly built the Lakeside Country Club, universally acknowledged as the "Home of World Darts". When legislation prevented Imperial Tobacco continuing their longstanding sponsorship of darts, Bob's unwavering support ensures the game of darts continues to flourish.

The Mission: Create the Home of World Darts.

JUNIOR DARTS CORPORATION

Nobody could have foreseen where one man's goal to help his son play fun darts with his friends would be right now. Steve Brown's ambition and relentless drive to bring a clear pathway for youngsters to play the world over is nothing short of superhuman.

The Mission: Create a pathway for youngsters to play darts the world over.

SIGHTRIGHT 8207 PERFECT DARTS

Steve Feeney's battle for perfect sighting and alignment culminated in SightRight's invention over 10 years. Steve continues his battle to help every single player throw to the absolute best of their ability in a perfectly straight line, as in his own words so few do, even TV pro's!

The Mission: Help every dart player throw perfectly on-line.

Image courtesy of Matt Huart

DR DARTS

Patrick Chaplin PhD. Affectionately known as Dr Darts, Patrick's life long interest and research into the history of darts is nothing less than an obsession. His studies include the history of the game and its structures, as well as the social aspects and growth of darts throughout the world.

The Mission: To establish the true heritage of the sport of darts.

GREEN ZONE 3019

- Easy-to-use handicap system
- Enables players of all ages, or ability to play
- Developed exclusively with the Junior Darts Corporation (JDC)
- Made from class-leading Blade 5 Dual Core technology combined with easy fit Rota-Lock technology
- The most fun inclusive dartboard in the world

WORLD DISABILITY DARTS ASSOCIATION

Formed by Russ Strobel in 2013, the WDDA now comprises of 16 affiliate countries with players numbering in their thousands and growing all the time, culminating in the first ever WDDA Winmau World Championships; a truly amazing achievement.

The Mission: Making darts accessible to absolutely any impaired player.

Note: When inserted into the dart, between 5mm and 6mm of each point enters into the barrel of the dart. Therefore a 32mm point will only show 26mm or 27mm of the actual point.

CRAFTSMAN RE-POINTING SYSTEM

The complete Craftsman point changer converts rotational forces and multiplies them by 40% for rapid, easy point changing.

Uses exclusive twin-props T2 technology force multiplier

Handmade from premium grade steel

Designed with differential pitched threads for easy point changing

8425

Simple, smooth changing of dart points

Hardened point clamp secures any size points

DIAMOND® POINT SHARPENER

8389

Retractable dart point sharpener made with a genuine fine coated diamond grit roughing surface. Built to last and is supplied with a pocket clip.

KEY RING SHARPENERS

PRO 8660

8550

Keep your steeltip points sharp to avoid costly bounce outs.

TRIDENT 180®

8808 8807

8806 8805

Bounce outs reduced by up to 50%. Flight life extended by up to 6 times. Eliminate dart-on-flight deflections. Increases aerodynamics and flight protection. Compatible with standard points only.

POINT CONVERTERS

8601

Convert softip darts to steeltip in seconds. Manufactured from high tensile tempered steel with a composite thread.

PREMIUM POINT PROTECTOR

STEELTIP - 8659
SOFTIP - 8662

This stunning Point Protector is included in our premium darts and is available as a separate item for those wishing to display their darts in true style.

TRITON SOFTIP POINTS

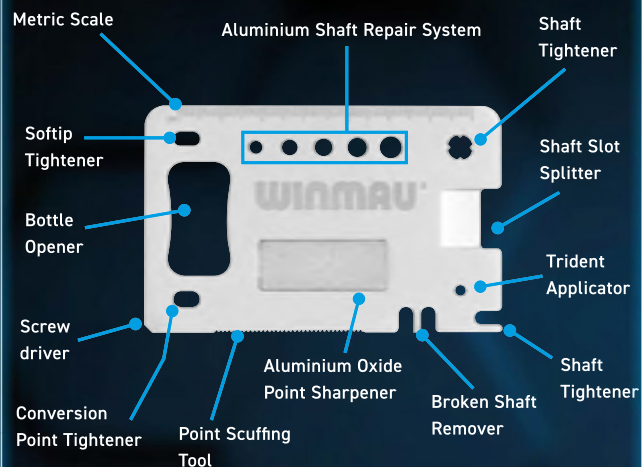

8605

Atomised finish for universal board retention with Axial grip tightening area and finger grip zone.

DARTS MULTI-TOOL

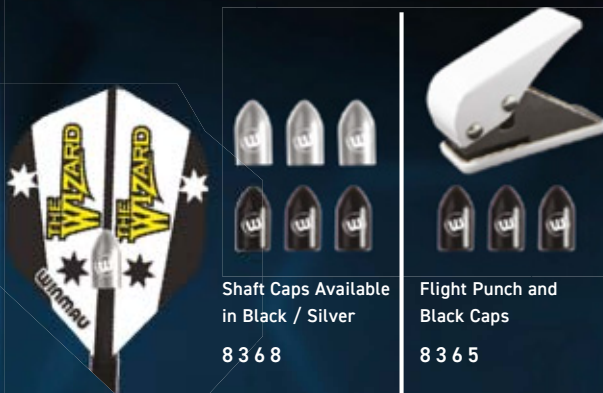

Essential precision darts toolkit for your every darting need.

8393

WHIZLOCK™

Designed in partnership with Simon Whitlock.

Shaft Caps Available
in Black / Silver

8368

Flight Punch and
Black Caps

8365

Locks flights in place and increases nylon shaft life.
Reduces dart-on-dart bounce outs by more than 50%. Only for use
with nylon shafts.

TON MACHINE® SOFTIP ELECTRONIC DARTBOARD

3556

- 18 games, 159 different variations
- Includes 6 softtip darts
- 12 spare softip points
- For up to 8 players
- Automatic scoring LCD display
- Uses 3 x AA batteries (not included)

SHAFT AND SOFTIP POINT REMOVER

8406
Plain Aluminium

8408
Anodised Aluminium

Remove broken shafts and
softip points in seconds.
Precision-machined from high
grade aluminium for the
ultimate in durability.

8407

Revolutionary spring-loaded
mechanism to securely fix a Winmau
dartboard to the wall.
Allows for easy board rotation for
even wear. The ultimate dartboard
mounting equipment.

FAMILY DART GAME

5100

- 6 Brass darts
- Traditional 20 point clock game
- Target reverse
- Easy hang fixings

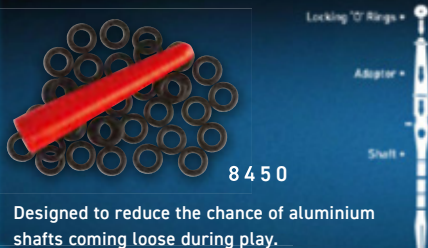

PRO-LOCK™ SHAFT RINGS

8411

5 sets per pack
Manufactured from our premium light-weight
Inox Steel with a sleek low profile to hold
and secure any flights. Easy to fit on any
Winmau nylon/polycarbonate shafts
allowing you to play stress-free darts.

SHAFT LOCKING SYSTEM

8450

Designed to reduce the chance of aluminium
shafts coming loose during play.

GLOBAL AMBASSADORS

EVERY AMBASSADOR TELLS A STORY

PAUL
NICHOLSON

PETER
MANLEY

TRINA
GULLIVER MBE

BOBBY
GEORGE

Winmau works with the sport's most passionate ambassadors – all with their own superb stories to tell. What stands out most above their achievements is the energy they put back into the sport for others. From Trina Gulliver MBE, the most successful female darts player of all time, to Bobby George, the world's first global superstar.

All Winmau's ambassadors share the same commitment to the love of the game. Paul Nicholson drives media growth and awareness through his encyclopedic knowledge, Peter Manley, another of the game's biggest ever characters, works hard as Chairman of the PDPA. Winmau are privileged to share their passion.

BUDWEISER®
